PROJECT EXPERIENCE

ONLINE CAR RENTAL MANAGEMENT

Technologies used: HTML, CSS, JavaScript, PHP, MySQL

Description:

- Developed an Online Car Rental Management platform to simplify car booking for users and administrators.
- Built features for users to browse various car models with respective prices, select departure and destination.
- Enabled administrators to manage booking records,customer details, and oversee rental operations efficiently.
- Implemented secure authentication and role-based access to ensure proper data handling and privacy.

INTERNSHIP EXPRIENCES

IBM – FRONT END DEVELOPMENT (September 2025 – October 2025)

- Worked on front-end technologies to design and develop minor websites, including a furniture booking platform.

- Gained practical experience in building interactive and user-friendly web interfaces.

- Successfully developed a fully functional website named **"Recipe Finder"**, integrating jQuery, PHP, and MySQL.
- Ensured the application was efficient, reliable, and optimized for smooth user experience.

CERTIFICATIONS

- Completed **"Edunet – Front End Web Development"** training program, gaining practical skill in building responsive web applications.
- Completed **"NPTEL – Python for Data Science"** online certification course, focusing on data analysis, visualization, and machine learning concepts using Python.

COCURRICULAR ACTIVITIES

- Participated and won 2nd place in a "Web Quest" theme of "Static Online Examination Portal" which is organized by Department of CSD, AITAM, Tekkali.
- Completed Python Fundamentals – GeekforGeeks
